MADHUKANTH M

AI & DS STUDENT

+91 9940984501 madhukanthm.ad24@bitsathy.ac.in https://www.linkedin.com/in/madhukanth-m/

SUMMARY

I am an AI & Data Science undergraduate with a strong foundation in programming languages like C , Java, and Python. My interests lie in problem-solving, data structures, and building scalable software systems. I am eager to apply my coding skills in a Software Development Internship while gaining invaluable insights from real- world engineering projects

EDUCATION

HSC

Gandhi Matriculation Higher Secondary School

04/2022 - 04/2024

B.Tech

Bannari Amman Institute of Technology

08/2024 - 05/2028

VOLUNTEERING

Code Circle Club

Bannari Amman Institute of Technology

2025 - 08/2025

Technical Event Volunteer, **Celestra** Assisted in conducting coding/technical events, handled participant queries, and ensured smooth technical operations.

INTERESTS

- **AI Model Trainer**
- **UI/UX**

CERTIFICATION

FRONT END Frenzy 2.0 - Top 2

Oracle Cloud Infrastructure 2025

Python Essentials (1,2)

Introduction to IOT

Code with curious 2.0

AWARDS

Code With Curious 2.0 -Winners

Front End Frenzy 2.0 - Top 2

ADDITIONAL SKILLS

Communication Team Work

KEY ACHIEVEMENTS

Achievements

Won the Code with curious 2.0 competition and achieved Top 2 in FRONT END Frenzy 2.0

LANGUAGES

English

Proficient

Tamil

Native

SKILLS

C /C++ Java Python

Data Structures Git Linux IoT

Problem Solving

PROJECTS

Agri Care

On Going

Bannari Amman Institute of Technology

AgriCare project focused on improving agricultural efficiency using AI technology

- Built an AI-based agriculture platform using ML, IoT sensors, and weather data
- Implemented pest/disease detection and irrigation alerts
- Enabled multilingual access and real-time market price updates
- Improving irrigation efficiency and crop monitoring accuracy

Aura Sink

On Going

Aura Sink project aimed at enhancing audio experience through real-time synchronization

- Developed a real-time audio synchronization system using UDP
- Implemented device clock synchronization and playback drift correction
- Designed buffering logic to minimize latency between devices
- minimizing latency between devices in real-time audio playback
